

# Client Onboarding Automation

## Turn First Impressions Into Long-Term Success - With Zero Friction

Client onboarding is the critical first step in every business relationship and one of the easiest to get wrong. When onboarding is slow, scattered, or full of manual steps, it leads to drop-offs, compliance risks, and lost revenue.

With Agentic Automation from Scale Through Automation, AI agents collect, verify, and activate client data across platforms giving your clients a seamless, secure, and fully guided onboarding experience.

## The Vision: Smart, Fast, Fully Automated Onboarding

Traditional onboarding involves too many disconnected systems and human follow-ups. Agentic Automation enables AI agents to manage intake, compliance checks, approvals, and CRM entry automatically and in real-time.

## What's Holding You Back?

- Too many forms, emails, and back-and-forth
- Delayed ID verification or missing documentation
- Manual data entry into CRM, billing, and project tools
- Disjointed internal handoffs between departments
- Compliance risks from incomplete onboarding flows

## Let the System Do the Work

Our AI agents streamline the entire onboarding journey:

- Send clients secure, branded digital intake forms
- Auto-verify IDs, licenses, and documents using AI
- Trigger KYC/AML, compliance, or tax checks instantly

# Client Onboarding Automation

- Route data to CRM, ERP, or project management systems
- Generate contracts and send for e-signature
- Track progress and notify internal teams automatically

## Agentic Workflows in Action

Smart Intake Forms: Collect client details and validate entries.

Identity & Compliance Checks: Real-time AI verification.

Document Generation: Create and send contracts for signing.

Internal Routing & Activation: Notify teams and assign accounts.

CRM & Platform Integration: Push data into core business systems.

## Key Capabilities

- AI-powered form completion and validation
- ID, license, and document verification
- Automated contract generation and signature flows
- KYC/AML and compliance screening
- CRM, billing, and ERP integration
- Client onboarding progress tracking

## Who This Is For

- B2B companies with multi-step onboarding workflows
- Agencies, SaaS companies, and consultants
- Financial services and real estate firms with KYC needs
- Teams juggling too many spreadsheets and emails

## What You Get

# Client Onboarding Automation

- 6080% faster onboarding time
- 100% compliance coverage with automated checks
- Fewer drop-offs and missed handoffs
- Unified client data across all systems
- Consistent, professional onboarding experience

## Why Scale Through Automation?

We don't just digitize your onboarding - we transform it into a fully intelligent system.

Strategy-First Approach: Define ideal flow before automation.

Purpose-Built Automations: Tailored solutions, not templates.

True Agentic Execution: AI that thinks, verifies, and acts.

Done-for-You Delivery: Full implementation and support.

## Get Started

Create a smarter, smoother first impression - powered by AI that gets it right from day one.
