

Invoice Processing Automation

Eliminate Manual Entry, Accelerate Payments & Stay Audit-Ready

Invoice processing is one of the most time-consuming and error-prone workflows in any business. With Agentic Automation from Scale Through Automation, your entire invoice lifecycle from capture to approval and payment runs on autopilot, with unmatched speed and accuracy.

The Vision: Touchless, Intelligent Invoice Processing

Traditional finance teams rely on humans to extract, validate, route, and enter invoice data leading to bottlenecks, errors, and delayed payments. Agentic Automation changes everything.

AI agents read, match, validate, and approve invoices in real time, while keeping your ERP and finance systems perfectly in sync all without manual intervention.

What's Holding You Back?

- Time-consuming data entry from PDFs, emails, and scans
- Frequent errors in amounts, duplicate invoices, and mismatches
- Delays caused by slow, manual approval workflows
- Lack of visibility into invoice status and payment cycles
- Struggles with compliance and audit preparation

Let the System Do the Work

Our intelligent agents take over your full invoice process from end to end:

- Extract data from invoices using AI-OCR in any format
- Match invoices to POs and goods received automatically
- Validate tax, totals, and vendor info against business rules
- Route to approvers instantly based on thresholds and policies
- Sync approved data to ERP or accounting software

Invoice Processing Automation

- Trigger payments and flag mismatches or anomalies

Agentic Workflows in Action

Intelligent Invoice Capture: Extracts invoice data instantly.

3-Way Matching & Validation: Verifies POs and receipts.

Automated Approval Routing: Sends to right approvers fast.

Payment Posting: Updates finance system and initiates payment.

Exception Handling: Flags issues with full context.

Key Capabilities

- AI-powered OCR and data extraction
- 3-way PO/invoice/receipt matching
- Rule-based validation and error detection
- Configurable approval routing
- ERP integration (QuickBooks, Xero, NetSuite, etc.)
- Full audit trail and compliance logging

Who This Is For

- Finance teams buried in invoice backlogs
- Growing businesses with increasing vendor volume
- Companies managing multi-location or multi-currency payables
- CFOs needing visibility and control over cash flow

What You Get

- 75-85% faster invoice processing time

Invoice Processing Automation

- 99% data accuracy with zero manual entry
- 3x faster approvals through smart routing
- Reduced payment delays and vendor complaints
- Full audit readiness and traceability

Why Scale Through Automation?

At Scale Through Automation, we go beyond traditional finance tools to build intelligent, autonomous systems that handle real financial work.

Consult First, Automate Second: We learn your process first.

Built with Compliance in Mind: Audit trails, controls, and visibility.

Agentic By Nature: AI agents analyze, decide, and act.

Done for You: We design, build, and maintain your automation.

Get Started

Turn hours of manual work into a fully automated process and gain back time, accuracy, and peace of mind.
